Transcripts & Full Audio

Peter is the General Manager of Jensen Motor Boat Co., one of Seattle's most historic and only remaining all-wooden boat restoration/repair yards. Jensen's is located on Portage Bay and has played a large role in the design and building of many well known local boats, including the Slo-mo-shun IV hydroplane. Peter joined Jensen's 20 years ago and has worked in the trade for over 35 years.
